- G. Russian Blue Potato

Planting Instructions Onions & Shallots

Where: Choose well-draining deeply cultivated soil. Plant shallots 3 cm (1") deep and 5 cm (2") apart. Plant onion sets Plant onion sets 8 cm(3") deep and 15 cm (6") . Water well all summer long.

Harvest: In late summer when the leaves start to die down.

Potato Planting Instructions

Where: Grow potatoes in a full sun area in well drained, sandy soil. Avoid planting potatoes in the same spot every year.

When: 3-4 weeks before planting, place potatoes in a bright frost-free area to sprout.

How: Plant spouted potatoes in rows 12 cm (6") deep and 30 cm (12") apart, rows should be 60 cm (24") apart.

Summer Care: In mid-July hill the potatoes to protect the growing tubers from greening.

Harvest: When the tubers have reached a usable size or the tops have died down. Mature potatoes should be left in the ground for 1-2 weeks allowing the skins to properly set which will increase their storage ability.
