

# Perfumed Patio Fragrant Summer Garden

- A. Acidanthera (Peacock Flower)
- B. Liliium Oriental 'Sunny Camino'
- C. Ismene White (Peruvian Daffodil)
- D. Ismene 'Sulphur Queen' (Peruvian Daffodil)
- E. Liliium Oriental 'Sunny Keys'

## Planting Instructions

### Where.

1. Choose a location that receives full to part sun with well-draining soil. Amend heavy soils with peat, compost and sand. Or choose a large container at least 40 cm (16") across with drainage holes.

### When:

2. Plant in April - May when all chance of frost has passed and the soil outside is at least 8 °C (46 ° F).

### How:

3. Dig a hole at least 15 cm (6") deep and 15 cm (6") wide. See individual packages for detailed depth and apart planting instructions.
4. Place the bulbs pointy side up and cover with loosened soil. Water thoroughly after planting and do not allow the soil to dry out for long periods so time.

### After Care:

5. Acidanthera and Ismene are not winter hardy. After the first major frost in the fall lift the bulbs. Remove growing stems and the soil around the bulbs.
6. Store the bulbs over winter in frost free boxes with dry peat until spring.

For more information visit [www.horticana.ca](http://www.horticana.ca)

Store in a cool dry place for up to 2 weeks after receiving. Plant outdoors once evening temperatures stay above 8 C or start in containers indoors. Must be planted this season for summer blooms - tubers will not keep until next year.
